

SENATOR PAPPAS: This is a little bill that was brought forth last year and, basically, all it says is if it is authentic, made out of natural materials by the Indians, it says original on it, authentic, and if it is not, it doesn't have original on it. And if anybody has any questions, Senator Hefner could probably help me on this.

SPEAKER NICHOL: Senator DeCamp. Senator DeCamp, your light is on. Any further discussion? Do you want to close? The question is the advancement of the bill. All those in favor vote aye, opposed nay. Did you ask for a record vote, sir? Oh, all right. Record, Mr. Clerk, please.

CLERK: 26 ayes, 0 nays, Mr. President, on the motion to advance the bill.

SPEAKER NICHOL: Thank you. The bill is advanced. LB 177.

CLERK: Mr. President, 177 by Senator DeCamp. (Read title.) The bill was read on January 15 last year, referred to Judiciary, advanced to General File. I have no amendments to the bill.

SPEAKER NICHOL: Senator DeCamp. I hate to pass over these bills if you are not here. Senator Hoagland, are you going to take it?

SENATOR HOAGLAND: Senator, why don't I take the bill on Senator DeCamp's behalf, Mr. Speaker. We heard this bill in the Judiciary and I think the committee report is self-explanatory and it came out of the committee on a 6 to 0 vote. The bill was brought to us by Senator DeCamp and officials of the Department of Corrections who indicated that it would make their job much, much easier administratively if Senator Landis's landmark Right to Privacy Act that we passed in the 1979 session of the Nebraska Legislature, which I am sure all of you can remember, would not apply within correctional facilities, and there were a number of examples given which I won't necessarily go into right now, but I think they are persuasive. I think the committee report deals with the issue and I would be happy to try to answer any questions anyone might have.
